Obama Official Honors Astonfield Renewable Resources

NEW DELHI, DELHI, INDIA

14-12-2010 02:01 PM

Astonfield Renewable Resources, a leader in India's clean energy industry, was awarded the Export Achievement Award from the U.S. Department of Commerce for their pioneering work in promoting clean energy in rapidly developing countries. The award was presented to Astonfield Co-Chairman, Sourabh Sen, by Suresh Kumar, Assistant Secretary of Commerce for Trade Promotion and Director General of the U.S. and Foreign Commercial Service in New York City on December 13, 2010.

Astonfield has established itself as a leader in bringing the technology and investment necessary to help drive India's renewable energy industry. Through strategic partnerships with finance, technology and engineering leaders from around the world, Astonfield is deploying the most advanced technological solutions to execute world-class projects that will attract investors to India's renewable energy sector.

"I believe that India will be one of the next world leaders in renewable energy power generation and we are honored to receive this recognition from the Chamber of Commerce and proud of our achievement as a major contributor to the Indian marketplace. Receiving this recognition reinforces our drive to bring affordable clean energy to the people of India," comments Sen, following receipt of the award.
